## STATIONARY BATTERIES LEAD ACID

TECHNOLOGY VRLA AGM  
NOMINAL VOLTAGE 12 Vdc  
CAPACITY 60 Ah to 190 Ah

### Let`See What We Do?

AA F+ series battery is a general-purpose battery with 12+ years design life in float service. With advanced AGM valve regulated technology and high purity raw material, the AA F series battery maintains high consistency for better performance and reliable standby service life.

### Applications:

- Telecom
- Utility / Substations
- UPS
- Emergency light
- Security system

### Description:

- Positive and negative grid electrodes
- Electrolyte is absorbed in active mass pores and in micro porosity separator
- Separators are from soft glass fibre
- Each cell has one-way safety pressure valve
- Safety fireproof equipment

### Main Performance

- Nominal voltage: 12 Vdc
- Nominal capacity: from 70 Ah up to 190 Ah
- Technology: VRLA AGM
- Contact: Front Terminal
- Life time: 12+ years
